

Oasis

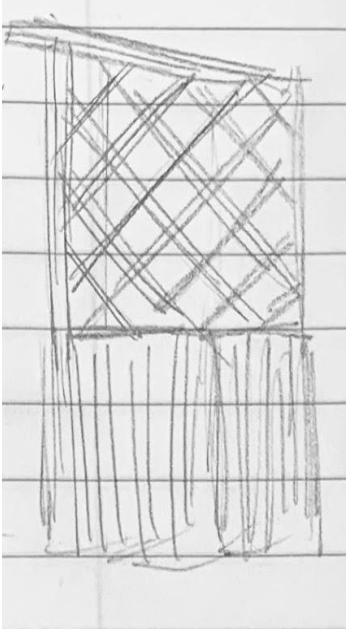

A variation of the oasis I initially sketched was a thought of a water feature on the side of a sidewalk.

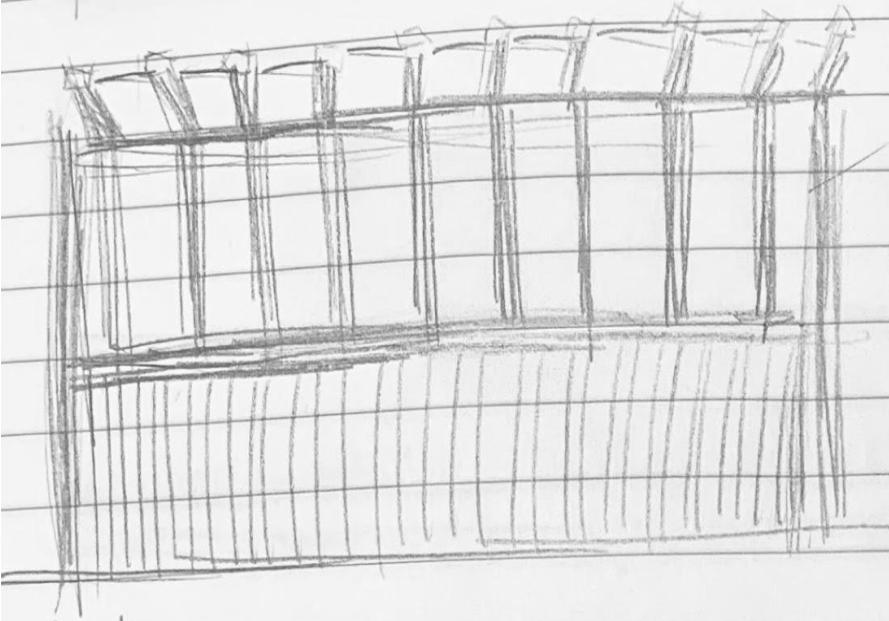

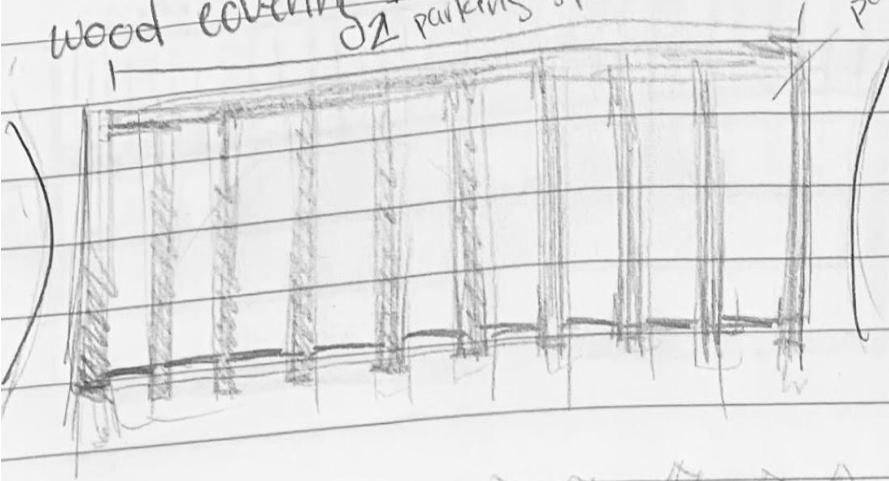

Initial Oasis Sketches

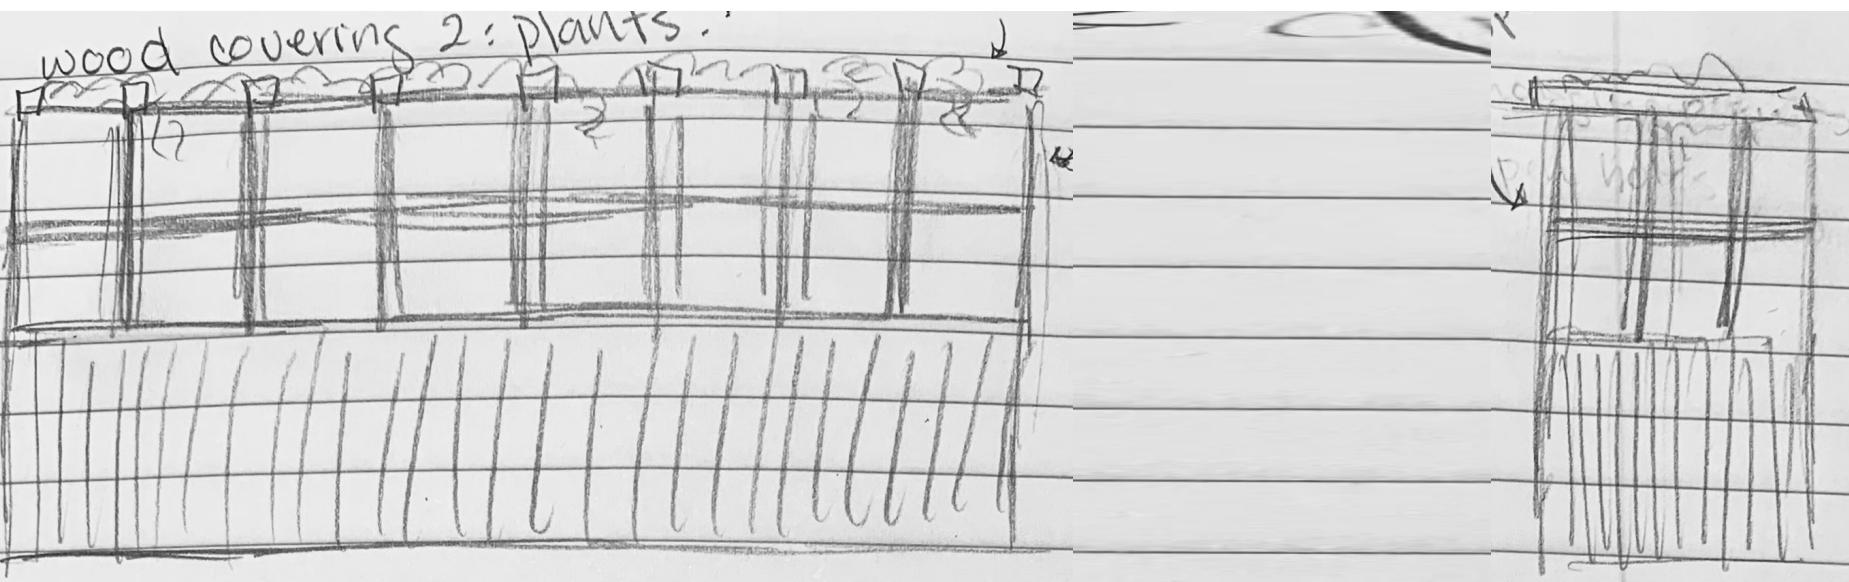

The following slides were a large about of sketches that explored what the oasis could look like from different layouts to different materials. The important points being the use of paper coverings, greenspaces, and curtains.

Coverings | Paper

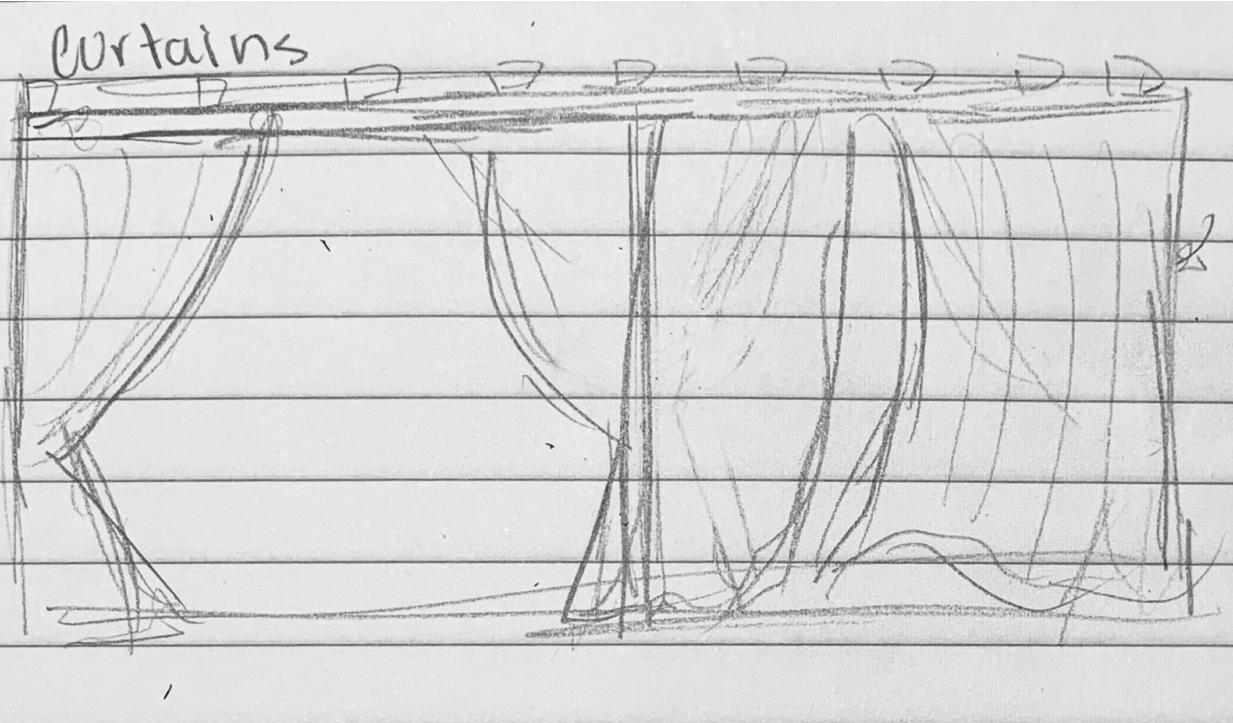

wood covering 2: plants

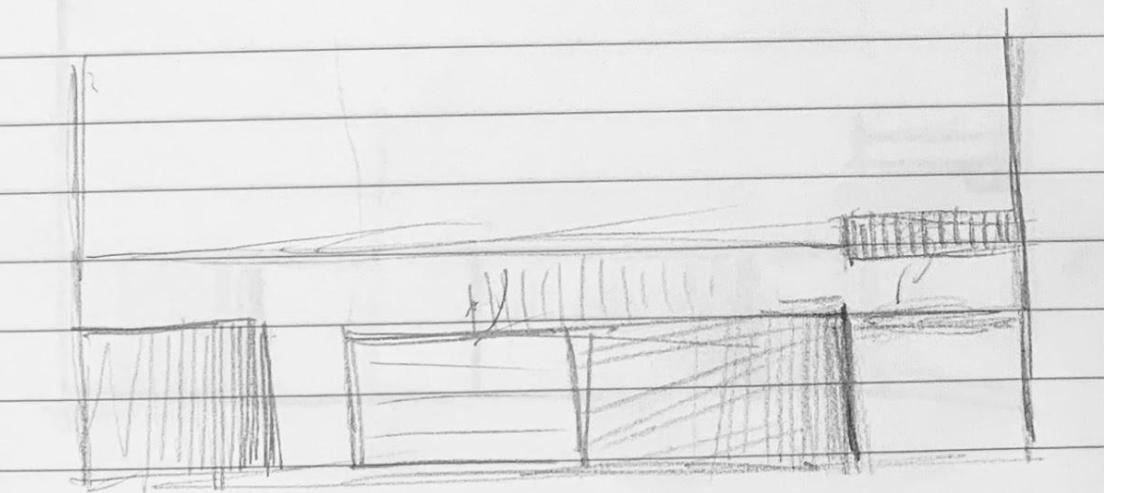

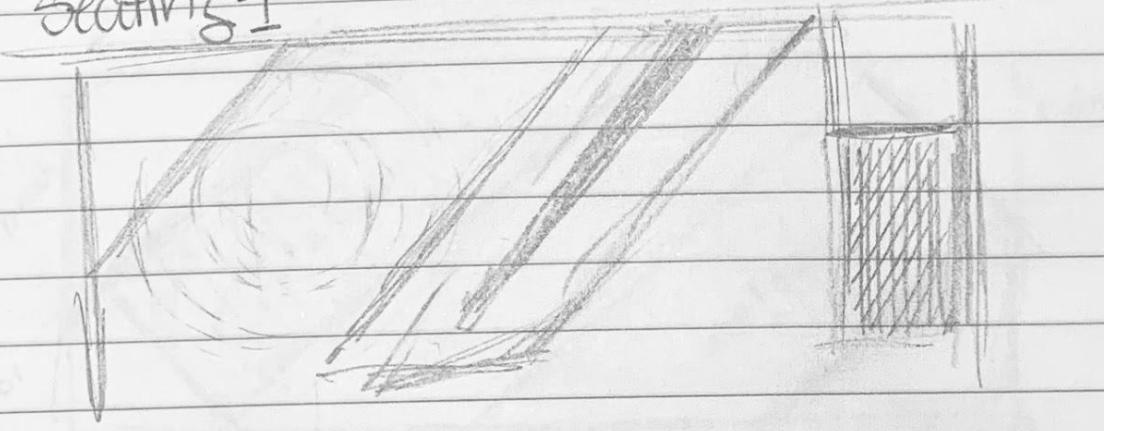

Coverings | Plants

curtains

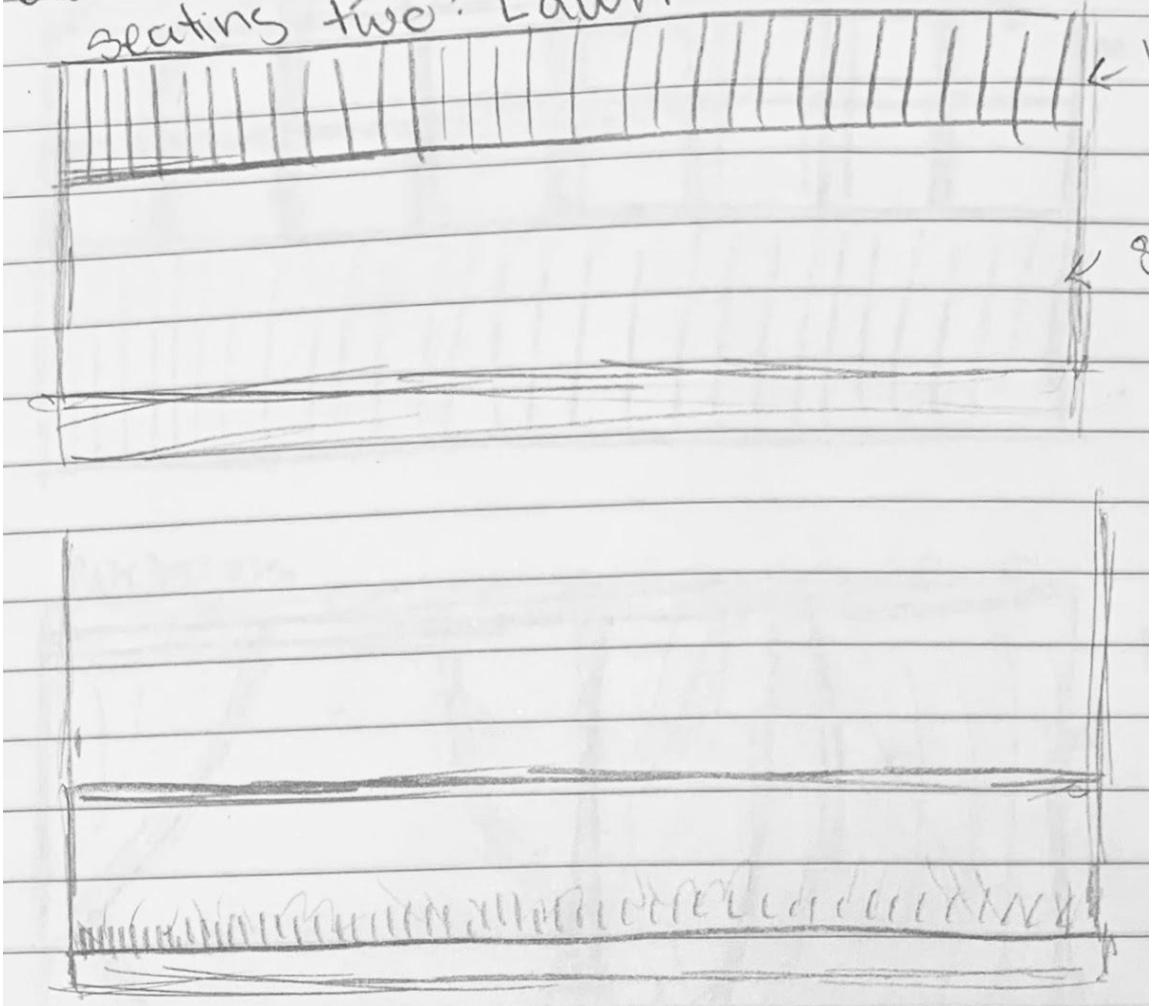

Coverings | Curtains

Seatings 1

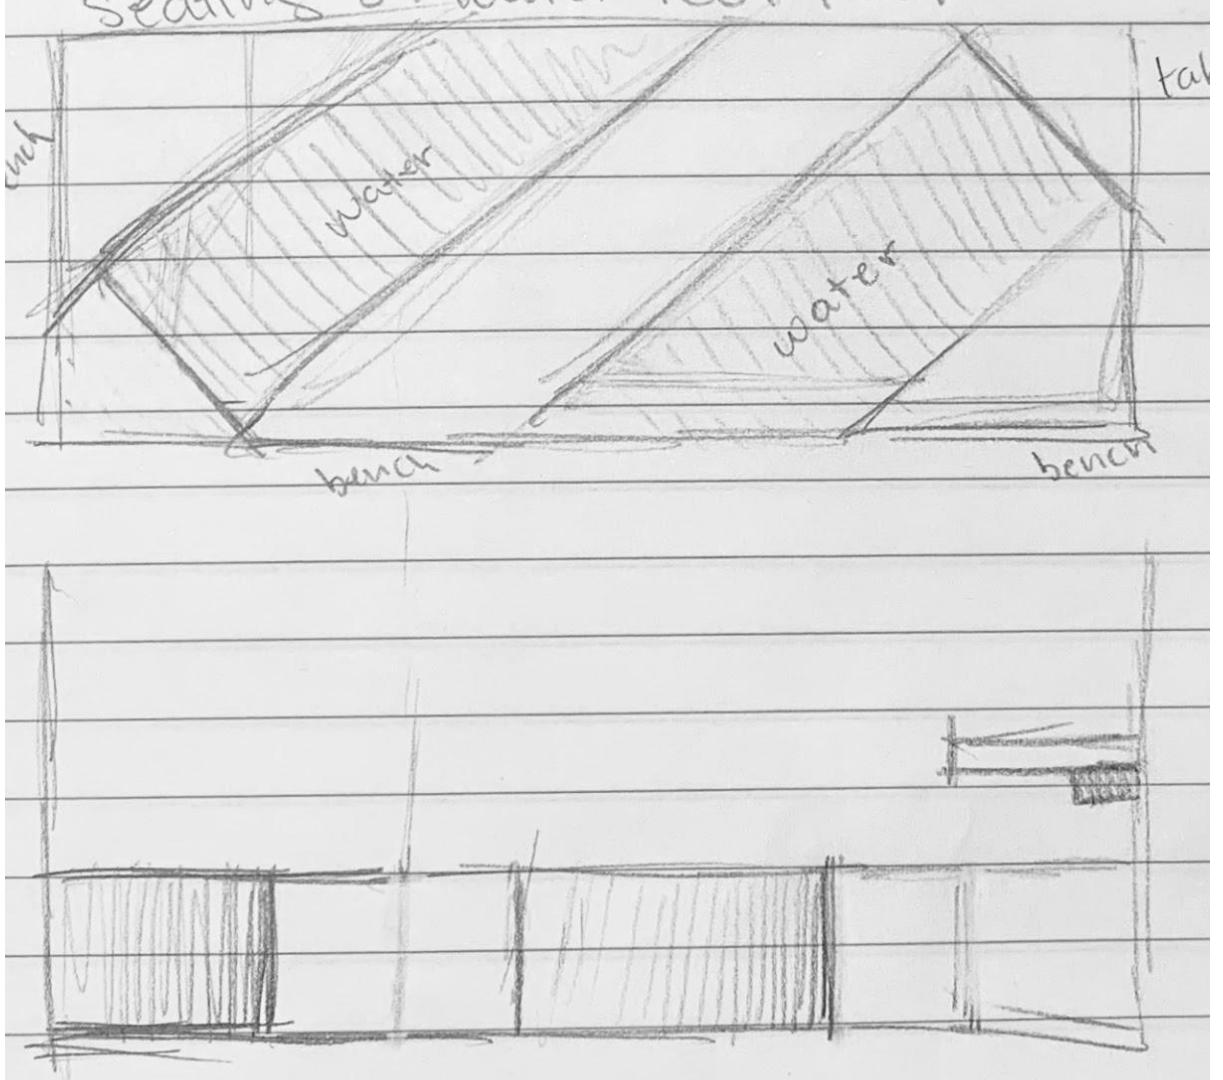

Layout | Simple Seating

asis: stone
seating two: Lawn

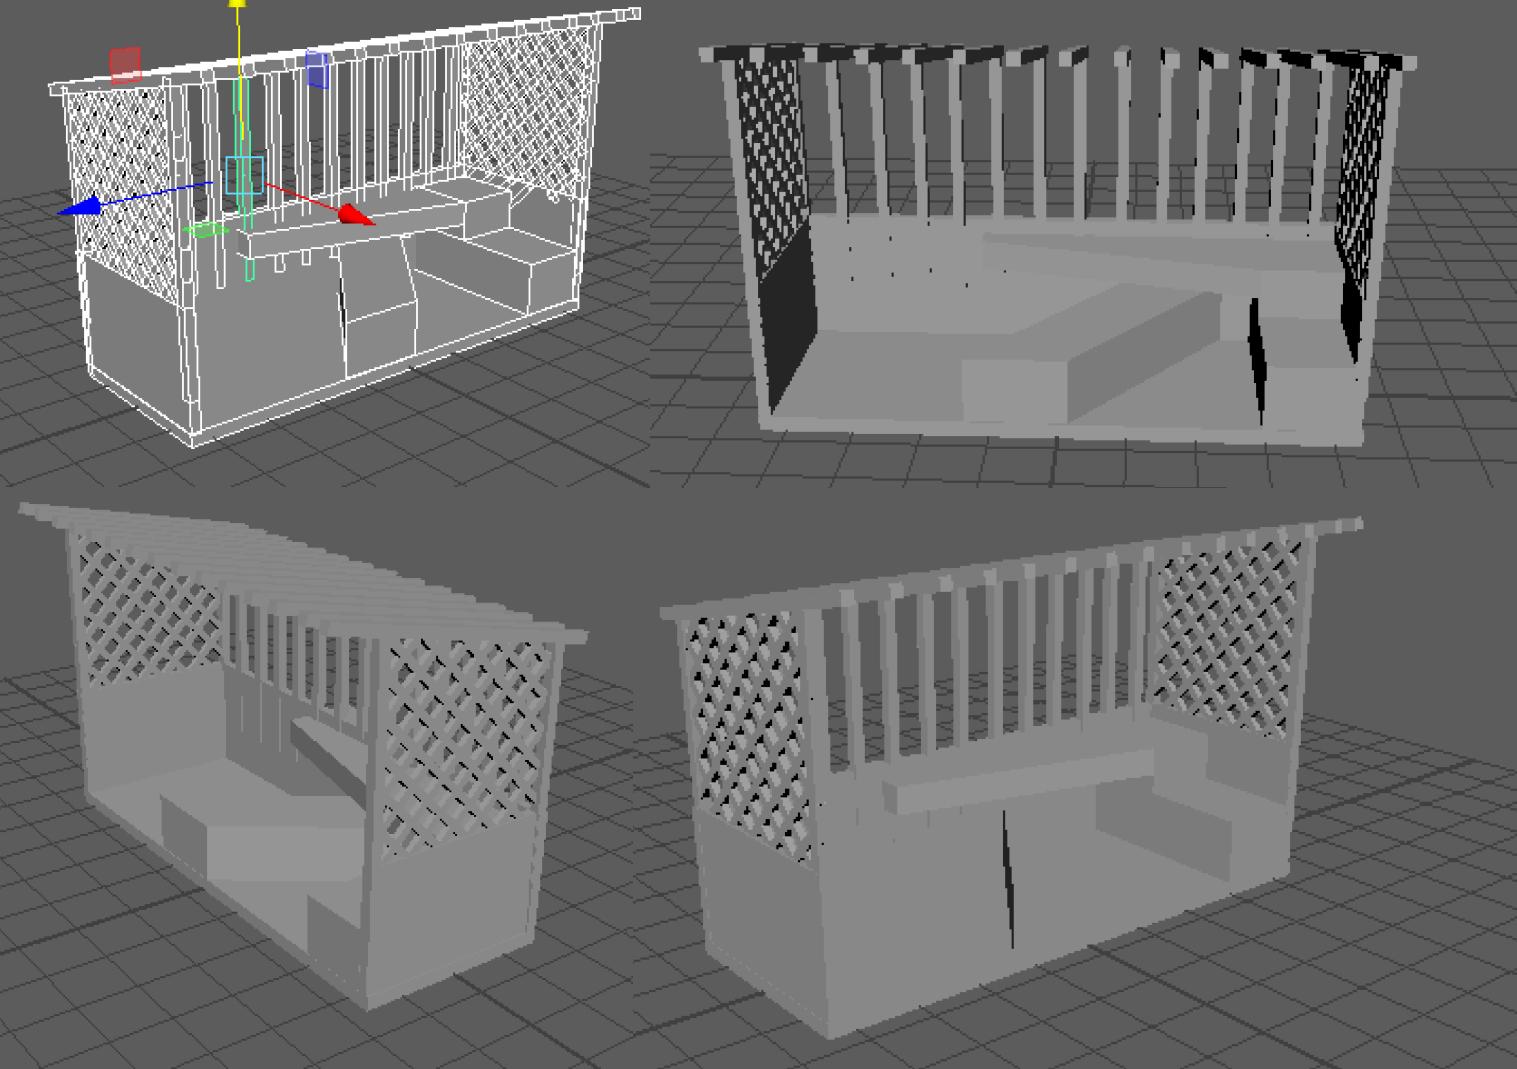

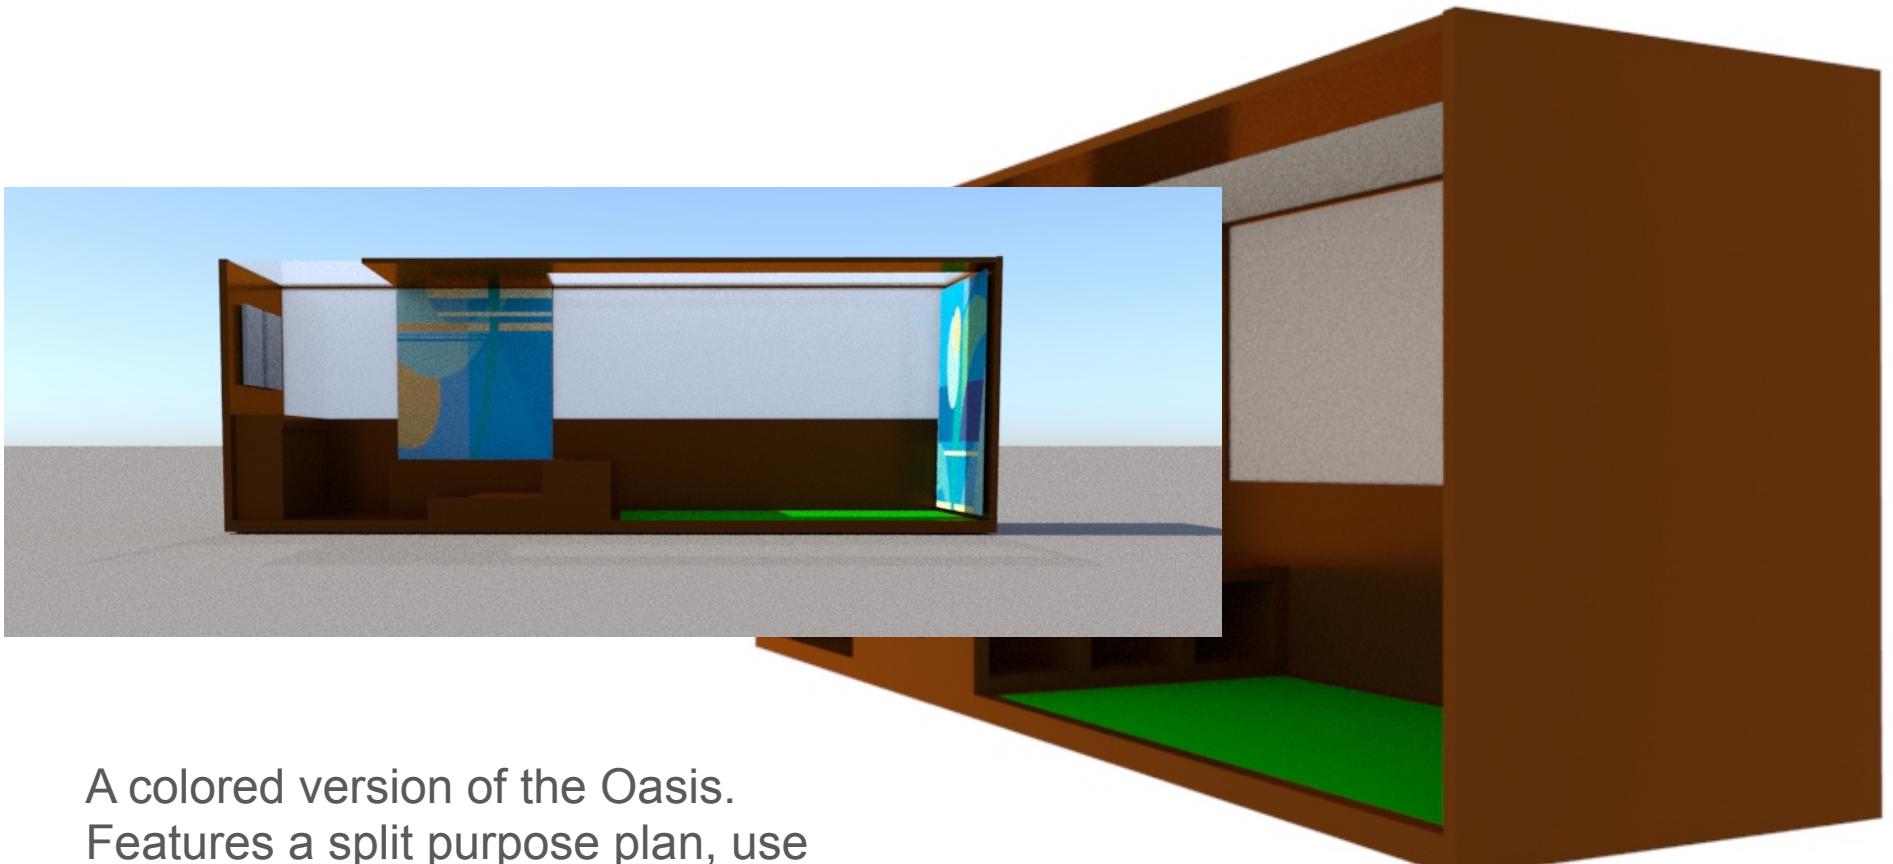

Layout | Lawn

Layout | Water Pool

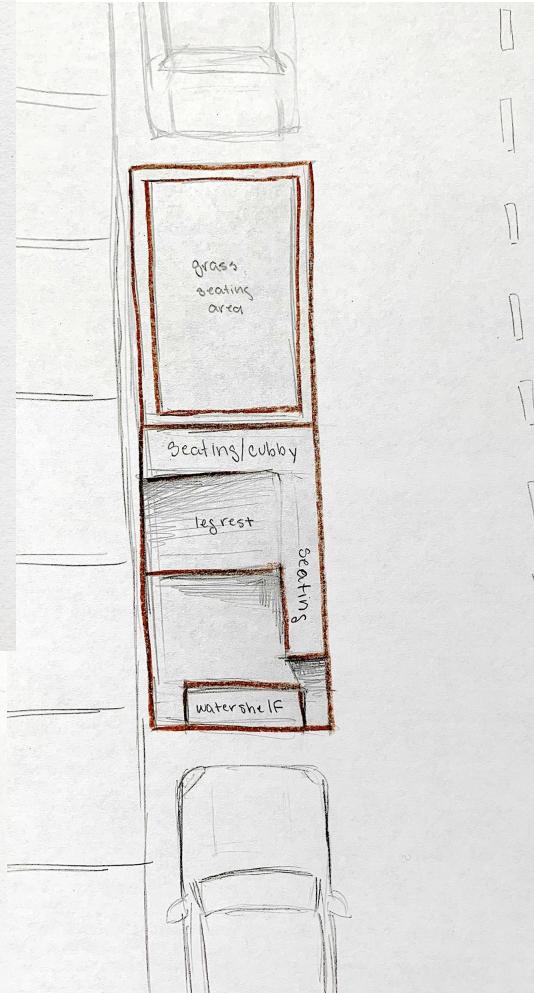

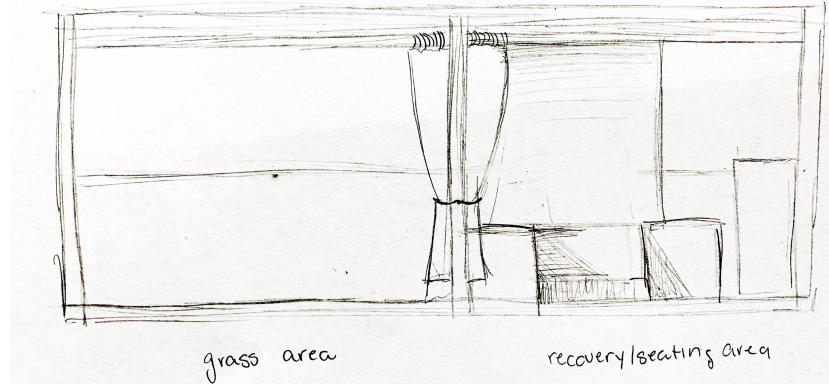

A early
model for
the oasis
done in
maya.

A colored version of the Oasis.
Features a split purpose plan, use
of abstraction on feature walls and
more angular and simple design.

The final sketches for the schematic of the oasis. Shows a curved structure, the re-inclusion of plants, and a resting area.

The final sketch
for the Oasis.
